U.S. Forest Service State & Private Forestry Wood Innovations

U.S. Forest Service, Forest Products Laboratory

Shared Challenges ... Why Mass Timber?

- Catastrophic wildfires
- Drought, insects, invasive species, disease
- Protect communities
- Improve local economies
- Issues are cross-boundary
- More sustainable building materials

Mass Timber Strategy & Investments

Education

- WoodWorks Events
- Mass Timber Conferences
- Softwood Lumber Board

Technical Assistance

- WoodWorks Project Assistance
- FPL Forest Products Marketing Unit
- Regional Wood and Biomass Coordinators

Research and Code

- Forest Products Laboratory (FPL), University, and other Research Partners
- Ad Hoc Committee on Tall Wood Buildings, 2021 IBC

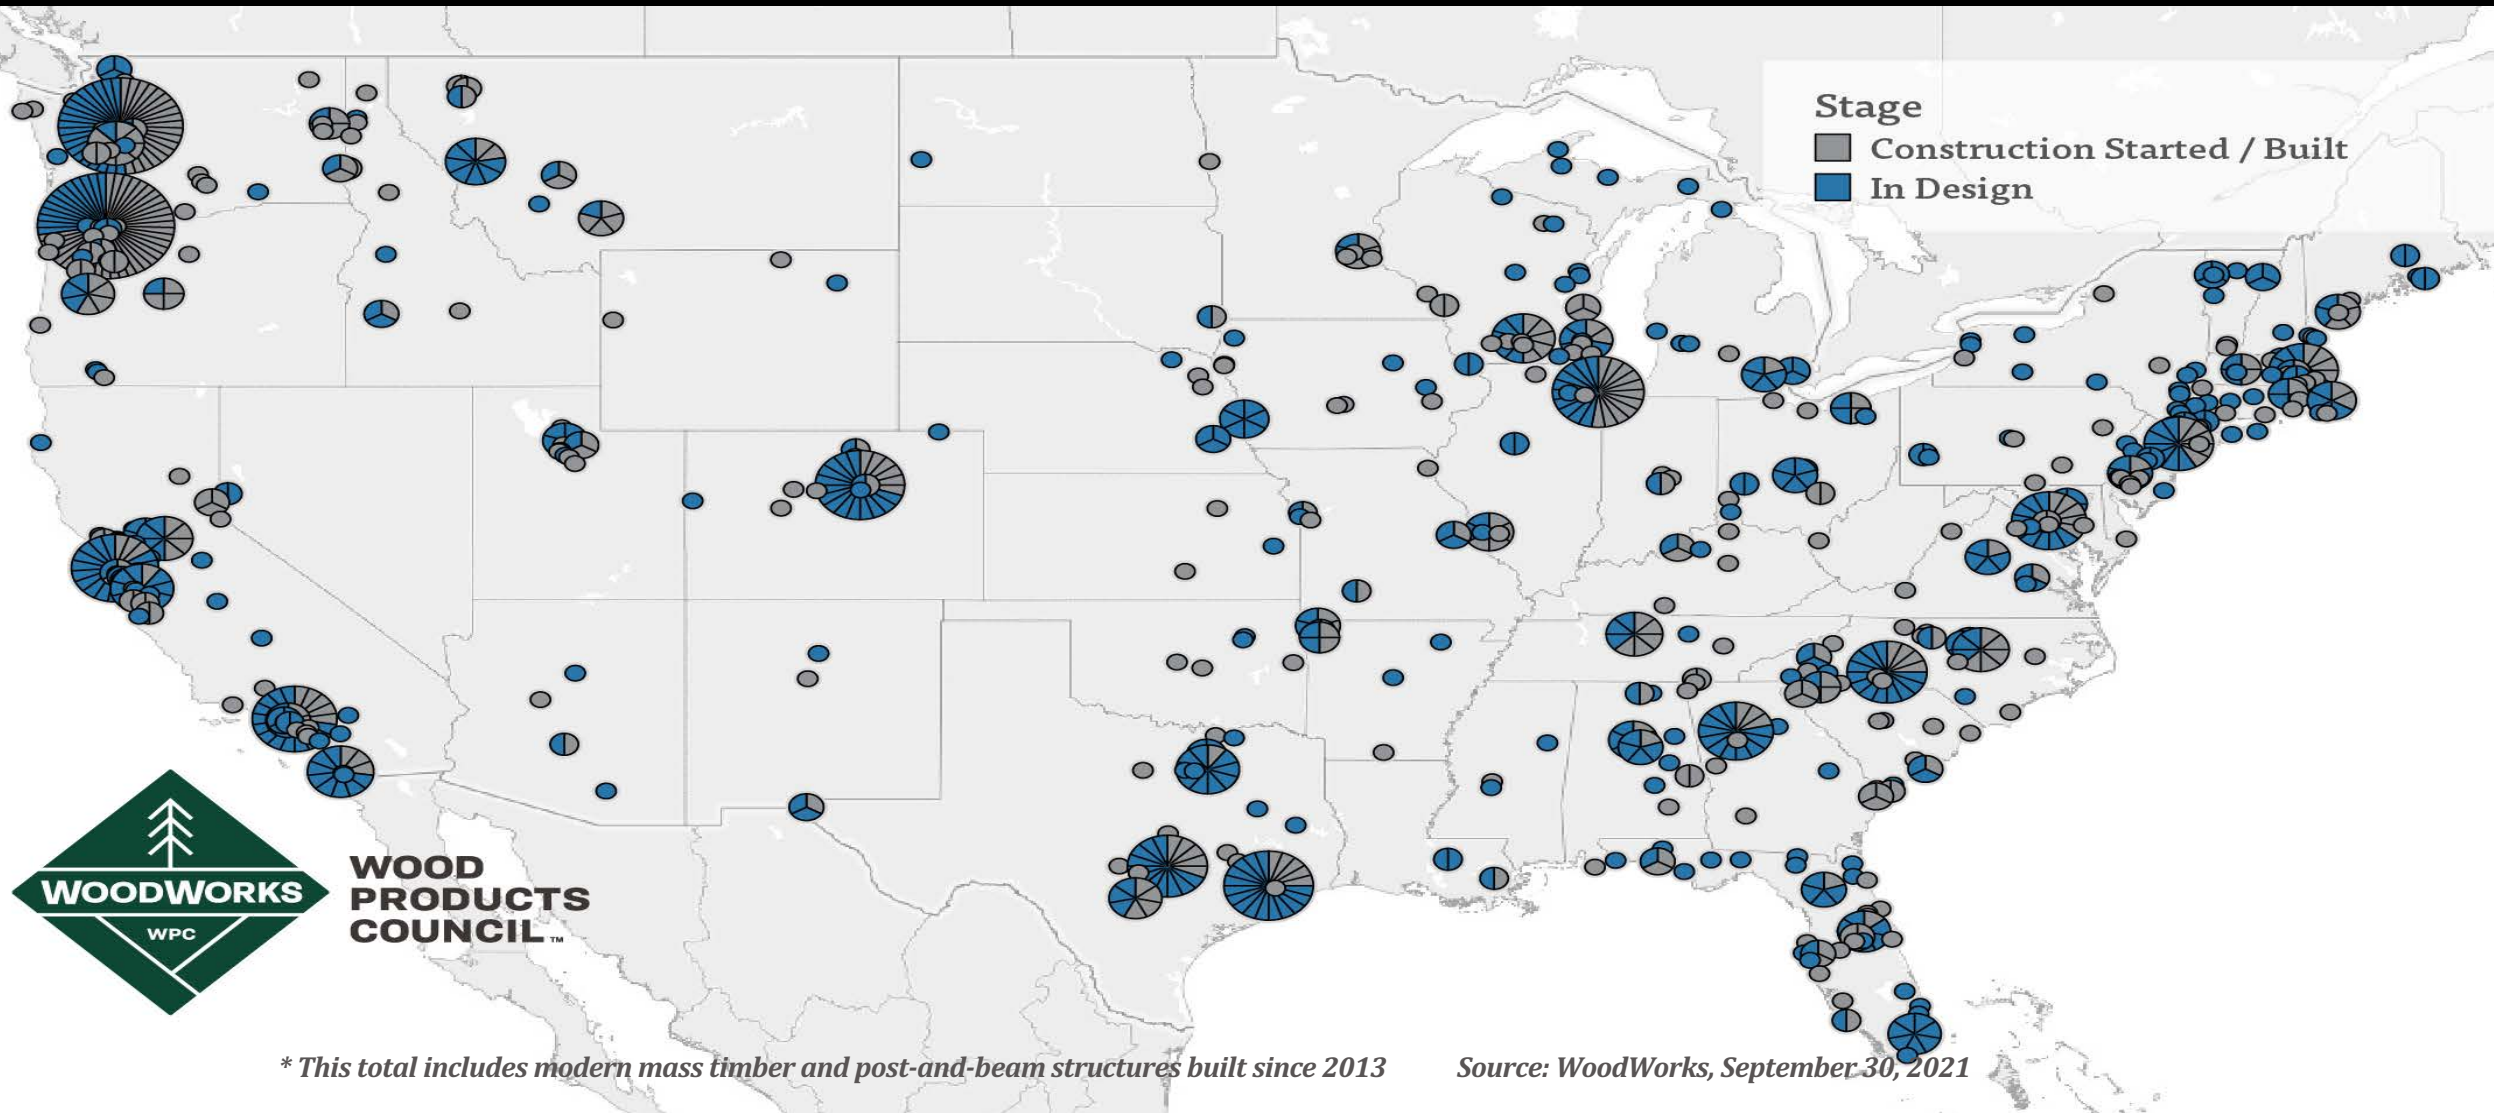

Initiatives

- U.S. Tall Wood Building Competitions (2015 and 2022)
- Wood Innovations, Community Wood Grant Programs
- Communications
- National Building Museum
- Impact Financing Pilot

Over \$40M
invested ...

Current State of Mass Timber Projects

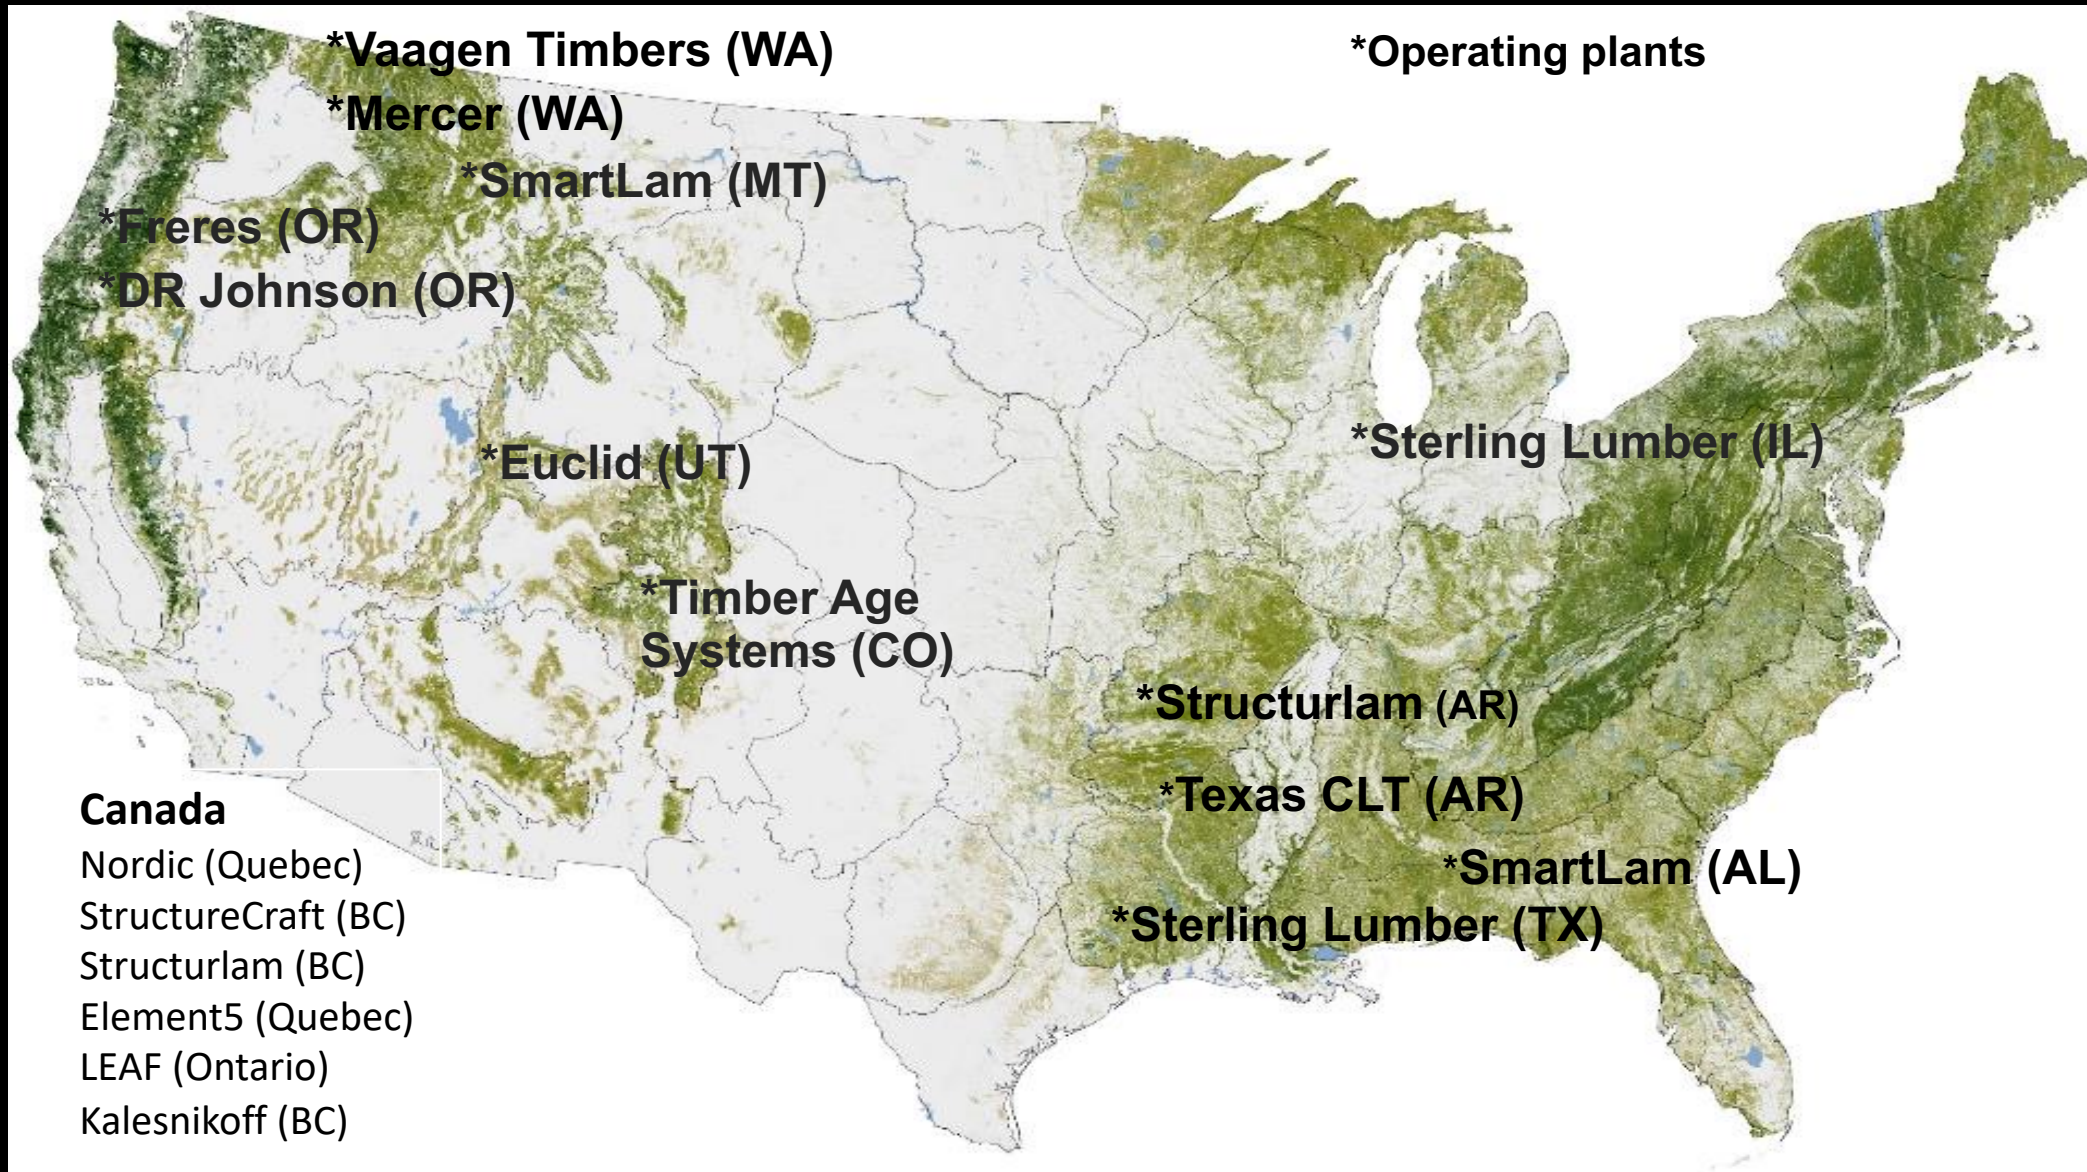

As of September 2021, in the US, **1,241** multi-family, commercial, or institutional projects have been constructed with, or are in design with, mass timber.

** This total includes modern mass timber and post-and-beam structures built since 2013*
