

FNRL Fire School

Fire School will give you more knowledge in two days rather than two weeks of school.

The hardest part is the fire line, but it's really fun

The best part is the mess hall during dinner time

At the end of the day, when everything is done, you have some free time to play games and have other fun

FNRL

It's a program for high school students to learn about forestry and get hands on experience. There are over 30 programs in the state of Oregon.

Things that are learned here can be applied to any aspect of life, especially if you go into a career of forestry.

Topics for the programs range from forest management to, logging, fire, wildlife, environmental science and pretty much anything that has to do with natural resources.

AOL Forest Operator Industry Recognized Credential

7 events that are required: First Aid, Speech, Tools and Terminology, Tree ID, Log Scaling, Map Reading, and Land Navigation.

2 of 5 additional events are required. Chainsaw bucking, Tree climbing, Choker Setting, Cable Splicing, and Fire School attendance.
